Dean's List	**2014 – September 2017**
Nassau County Interscholastic Mathematics League, Top 50 Finalist	**September 2010 – May 2011**

University Projects

Silk Tours:

silktoursapp.com

Silk Tours is a Web, Android, and IOS application that can connect travelers with local guides in their area. Initially, it was developed as a senior design project with a group of Drexel Students. Currently, it is under final development with a small team under Silk Tours, Inc.

Nuclear Waste Disposal Robot:

github.com/JunhoAn0702/Nuclear-Waste-Disposal-Robot

This is robot made out of Lego. Designed and built with a team of Drexel students using Lego and Arduino. The robot's primary task is to clean the nuclear waste. There was a competition throughout the entire engineering freshmen and our team won First place in the class.

My Finance with Roommates:

drexelui.wordpress.com/2016/12/02/my-finance-with-roommates/

This is Java GUI application that provides a way of keeping track of your daily expenses and other expenses with your roommates.
